EXPERIENCE

SOFTWARE ENGINEER • PEARSON • 02/2020—PRESENT

- Moved legacy system from TFS to ADO GIT to improve developer experience and allow multiple teams to work without many conflicts.
- Decoupled legacy systems and libraries to provide cleaner maintainability and deployment processing.
- Support legacy system to allow virtual school start with increased numbers due to pandemic.

SENIOR FRONT END DEVELOPER • FEI SYSTEMS • 02/2018-02/2020

- Provide front end architecture insight with third party libraries and custom NPM packages.
- Built, maintained, and enforced standards for CI/CD, and Branch management through multiple release and certification prep periods.

FRONT END DEVELOPER • ICD SYSTEMS • 09/2017-11/2017

- Championed adoption of scrum and agile practices as a way to meet project deadline
- Pose standards for unit testing, and peer review of code before merges.

SOFTWARE ENGINEER II • CONNECTIONS EDUCATION • 01/2014-09/2017

- Define standards and practices for Automated UI testing CI/CD.
- Respond to feedback and technical concerns from product owners.

DEVELOPER II • CATALYST IT SERVICES • 08/2011 - 01/2014

- Analyze user needs and software requirements to determine feasibility of design within time and cost constraints.
- Apply the principles of Object-Oriented Programming to design, develop, and implement the application.
