

Jeremy Reed

SPECIALIST, SOLUTION ARCHITECT

Profile	Solution Architect and Senior Software Engineer with 15+ years delivering enterprise software across education, healthcare, and SaaS. Proven record designing scalable systems, modernizing platforms, and leading engineering teams — from hands-on full-stack development to cloud-native architecture on AWS and Azure.
Key Skills	Architecture & Leadership: Solution Architecture, Technical Leadership, Stakeholder Collaboration, Agile/SAFe Frontend: Angular, React, Next.js, TypeScript, HTML5, CSS3/SCSS Backend: C#, .NET Core, ASP.NET, Node.js, RESTful APIs Cloud & DevOps: AWS (ECS, EC2, S3, Lambda, RDS), Azure, Docker, Azure DevOps, GitHub Actions AI & Tooling: Claude, GitHub Copilot, MCP Server Development, ChatGPT
Professional Experience	Pearson — PVS, Remote 2026 – Present <i>Specialist, Solution Architect</i> - Produce high- and low-level architecture documents for Data Foundation, MDR automation, and platform modernization initiatives. - Drive cross-team technical strategy; serve as advisor and mentor for engineering teams on design, DevOps, and best practices. 2023 – 2026 <i>Senior Software Engineer</i> - Acted as Solution Architect for a career-based program, producing architecture documents and guiding engineering teams through implementation. - Pioneered AWS-native project templates accelerating containerized/serverless adoption; led data retention platform ensuring compliance for alumni records. 2020 – 2023 <i>Software Engineer</i> - Orchestrated full migration from TFS to Azure DevOps (repos, pipelines, work items) with zero downtime; redesigned release cycles to support more frequent, reliable deployments. FEi Systems, Remote 2018 – 2020 <i>Senior Front-End Engineer</i> - Served as frontend solution architect designing reusable Angular packages (6–8) and enforcing CI/CD standards across Azure DevOps pipelines for healthcare clients. - Partnered with UX, backend, and QA to deliver accessible, high-performance applications; mentored junior developers and refined Agile processes. Connections Education (Pearson), Hybrid 2014 – 2017 <i>Software Engineer II</i> - Built features across Angular 2 and .NET/legacy systems for a K–12 platform serving hundreds of thousands of students; implemented CI/CD pipelines for automated UI testing. Catalyte (Catalyst IT Services) 2011 – 2014 <i>Developer II</i> - Delivered full-cycle custom software for Fortune 500 and SMB clients across retail, finance, and professional services; worked directly with stakeholders from scoping through deployment.
Certifications	AWS Solutions Architect — Associate in progress SAFe 4 Practitioner, 2019 expired MCSA: Web Applications, 2016 Microsoft Exams 480, 486 & 487 — HTML5/JavaScript, ASP.NET MVC, Azure Web Services, 2013
Projects	secret-santa — Self-hosted gift exchange manager with wishlists, constraint-aware matching, and email notifications. Next.js · TypeScript · SQLite · Docker jotty-mcp-server — MCP server connecting Claude Desktop to the Jotty API; 11 tools across checklists, notes, and admin. Node.js · TypeScript · Docker
Volunteer	2020 – Present Programming Mentor , FIRST Robotics, Cybersonics Team 103
